

TTES Afterschool Community Service Project Updates!

TTES's Afterschool program often works to connect students with community needs, and this year we are committed to supporting students in each grade with one or two projects designed to expand their understanding of local folks or animals in need.

As you may have seen, fourth graders recently completed decorating donation boxes for Kiting for Kids, an organization that collects toys for pediatric cancer patients and their siblings for the holidays.

Third and fifth graders are currently writing cards/notes for meal trays for patients spending the holidays at the local VA hospital.

Our next project will be lots of fun! There are several non-profit animal shelters in the area housing many homeless animals. Second graders will recycle corks and make kitty toys for shelter cats. We need your help!

**We're looking for rinsed wine corks!
We're going to recycle them into cat
toys for local shelter cats!**

**Donations can be dropped off in the
Afterschool Office! Thanks!**
